## GENERAL INDEX

### PART I.—CANADIAN TRADE :—

Imports into and Exports from Canada.

(Itemized and General Statements.)

### PART II.—CANADIAN TRADE :—

With France.

With Germany.

With United Kingdom.

With United States.

### PART III.—CANADIAN TRADE :—

With Foreign Countries.

(Except France, Germany, United Kingdom and United States.)

### PART IV.—MISCELLANEOUS INFORMATION :—

Bounties.

Lumber and Staple Products.

Revenue and Expenditure of Department of Trade and Commerce.

Statistical Record of the Progress of Canada.

Tonnage Tables.

Trade Commissioner Service.

Administration of Gold and Silver Marking Act.

### PART V.—GRAIN STATISTICS.

### PART VI.—SUBSIDIZED STEAMSHIP SERVICES.

### PART VII.—TRADE OF FOREIGN COUNTRIES : TREATIES AND CONVENTIONS.

NOTE—*The above parts will not necessarily be issued in the order indicated.*

PART IV.  
MISCELLANEOUS INFORMATION.

Bounties.	Statistical Record of the Progress of Canada.
Lumber and Staple Products.	Tonnage Tables.
Revenue and Expenditure of Department of Trade and Commerce.	Trade Commissioner Service.
Administration of Gold and Silver Marking Act.	

TABLE OF CONTENTS.

BOUNTIES.

SESSIONAL PAPER No. 10c

ANNUAL REPORT OF MR. G. O. BUCHANAN, INSPECTOR OF LEAD BOUNTY CLAIMS.

KASLO, B.C., January 16, 1914.

F. C. T. O'HARA, Esq.,  
Deputy Minister,  
The Department of Trade and Commerce,  
Ottawa.

Sir,—I beg to report the operations of the Lead Bounty branch of your department for the calendar year 1913.

Under Chapter 29 of the Statutes of Canada, being Act 3-4, George V, assented to June 6, 1913, the Lead Bounties Act was extended for a further term of five years. Such further term is to cease and determine on the 30th day of June, 1918.

The enacting clauses of the new Act follow the readings of the former Acts, except that the amount payable in any year ending on the thirtieth day of June shall not exceed two hundred and fifty thousand dollars, and a corresponding reduction is made in the total amount of lead produced in any year, up to which the bounty may be paid in full.

PRODUCTION AND PRICES.

The quoted price of fourteen pounds ten shillings per ton of 2,240 pounds of lead in London, remains the basis upon which the bounty is computed, the bounty being diminished by any excess above that quotation. The highest London quotation at which any fraction of bounty is payable is £17.18.9.

The quotation of January 1, 1913, was £17.17.6, and the tendency was downward until March 10, at which date the lowest price for the year was reached, £15.8.9, at which figure, 54.63 cents per 100 pounds of lead is payable as bounty.

After this there was a rapid rise to £18.2.6. on April 14, after a few days of alternations above and below the line, the quotations finally passed out of the bounty zone on May 8, and remained out of it until December 2.

The highest quotation was on June 19, £21.10.

For December the quotations have varied from £18.2.6 to £17.10. As the shipments for December have amounted to 3,850,774 pounds of lead, a sum approximating \$2,000 has accrued as bounty, but the claims for this have not as yet been adjusted.

For the fiscal year ending March 30, 1913, I certified to claims for bounty accruing upon lead deliveries at the smelter at Trail, B.C., to the amount of..... \$64,685 05

For the same period there was paid, in respect of claims for bounty upon lead delivered at the smelter of the North American Smelting Company at Kingston, Ont..... 1,592 81

Total ..... \$66,277 86

From April 1 to November 30, 1913, owing to the obliteration of the bounty by the high London price, the claims presented have amounted only to ..... \$6,773 86

The assay contents of lead in ores delivered at smelters in Canada for the year 1913 have been :—

Smelter at Trail, B.C.....	54,241,325 pounds	
“ Kingston, Ont.....	1,474,318	“
Totals for year January 1 to December 31, 1913.	55,715,643	“
“ “ “ “ 1912.	45,262,284	“
Excess in favour of 1913.....	9,453,359	“

4 GEORGE V., A. 1914

The mines that have chiefly contributed to the excellent showing of lead production that has been made for the year, are, with the figures of production of each :—

Mine.	Location.	Lead in Pounds.
Standard.....	Silverton, B.C.....	18,718,790

Some of the other shippers with less than 100,000 pounds each are : Reco, Maestro, Silver Hoard, Eastmount, Idaho-Alamo, Silver Cup, Lucky Jim, No. 7, Revenue, Noble 5, Society Girl, Wonderful Hewitt, Cork and Black Prince.

The Bonanza, a mine situated in Washington, U.S.A., has shipped, during the year, to the Trail smelter, ore with lead contents of 197,579 pounds, and two or three other properties in the United States, which mines are situated contiguous to the Canadian boundary, have also sent small shipments.

For the first time in many years the prices of lead have been, during 1913, practically as high in London as in New York, and the usual basis for settlement at the smelters for lead, being in Canada, London price less one cent per pound, and, in the United States, New York price less  $1\frac{1}{2}$  cent per pound, the conditions have been favourable for the attraction of some ore to the Canadian side of the line.

Under the new United States tariff the duty upon lead in ore has been reduced from  $1\frac{1}{2}$  cents per pound to three-quarters of one cent per pound.

When, prior to 1897, under the Wilson tariff, this same rate was in force, all the desirable ores of British Columbia were drawn away to the United States.

But at that time the discrepancy in price of manufactured lead as between the United States market and the London market was very great. Now that the two markets have reached an equilibrium, and as I have noted above, shipments of lead-bearing ore on more than an experimental scale are reaching the Trail smelter from Washington and Idaho.

The nearest competing smelter south of the line, that at Tacoma, is not at present treating any lead ores.

I am informed by the local officials of the Consolidated Mining and Smelting Company that, for the last year, they have marketed the whole of their lead product in Canada, and have had no surplus for export.

The responsible mining journals, in their reviews of conditions for 1913, note that lead only, of the important commercial metals, shows a diminished production.

The world's total output of about 1,100,000 tons per annum has been stationary, or worse, for a number of years. New sources of supply are also reported to be invisible.

## SESSIONAL PAPER No. 10c

The average price of metals for a series of years is given in the following table:—

	1910.	1911.	1912.	1913.
Silver... ..cents per ounce	53·486	53·304	60·88	60·04
Copper electrolytic, New York... ..cents per pound	12·738	12·376	16·335	15·234
Lead, London... ..£ stg. per ton	12·920	13·970	17·94	18·829
Zinc, St. Louis ... ..cents per pound	5·370	5·758	6·995	5·503

This table indicates that the price of lead, in spite of its extraordinary fluctuations, is rapidly and consistently rising, and suggests that our producers may quite confidently expect high prices for some considerable time ahead.

## PLANT ENLARGED.

Extensive changes have occurred, or are under way, in the lead-smelting branch of the Consolidated M. & S. Co's. plant at Trail. In addition to two stacks now operating, two more are under construction. These stacks have a nominal capacity of 100 to 300 tons per day each, but the actual accomplishment depends upon the character of the ore treated. The whole Huntington-Heberlien roasting plant has been rebuilt and remodelled. Two new Wedge roasting furnaces of seven decks each have been installed. The roasting capacity has been practically doubled. A smoke-cleaning device, calculated to arrest and retain valuable metals which are now being carried freely into the atmosphere, is being installed.

The lead refinery has been further enlarged, and has now 240 tanks. The capacity is now ample to care for all the bullion produced at the smelter.

## PROCESS PROBLEMS.

The separation secured by the electrolytic process employed is nearly perfect. The silver product assays ·999 fine, and the lead is of a standard of purity never elsewhere attained.

No particular change in rates of treatment have been made during the year. These are based upon the character of the ore.

Constituents particularly undesirable are sulphur and zinc, and, in a lesser degree aluminum and phosphorus. Ores high in lead and carrying also lime and iron are generally in request. Some ores command a premium. Others are treated free of charge. From zero for highly desirable ores, the rates at the Trail smelter vary up to \$10.50 per ton of ore.

More and more the situation as regards lead mining in British Columbia becomes involved with the question of the disposal of the zinc contents of the ores.

It is estimated by good local authorities that in the lead producing mines of British Columbia there is now in sight, by 50 per cent, a greater tonnage of zinc than of lead.

In Canada there is absolutely no market for zinc ores, and at present no facilities for their reduction.

In the ores of British Columbia the zinc is found in mechanical and chemical combination with lead and iron. Efforts to secure separation by water, gravity, roasting and magnetic processes have not been successful.

In the furnace, zinc is the most volatile of metals, going off in vapour at a temperature lower than that necessary for the fluxing of the other contents of the ore. In its premature departure from the stack it forcibly carries off the silver and lead contents of

4 GEORGE V., A. 1914

the charge. Hence the presence of zinc in lead ores is penalized. The smelting charge on ores carrying more than 10 per cent of zinc is increased by 50 cents per unit of zinc per ton of ore, for each per cent above 10.

Thus an ore assaying 20 per cent of zinc will pay a treatment charge of say \$8 per ton, plus zinc penalty of \$5, or a total of \$13 per ton.

Last year the duty upon zinc going into the United States was 1 cent per pound, with also duty on any lead contents at  $1\frac{1}{2}$  cents per pound. Under the new tariff zinc is dutiable at \$1 for the first 25 per cent of zinc contents, and 1 cent per unit above, and  $1\frac{1}{2}$  per cent of the value of the ore. Lead in the ore is not dutiable unless in excess of 3 per cent, and then at  $\frac{3}{4}$  of one cent per pound, instead of  $1\frac{1}{2}$  cents as before.

The difference upon a car load of ore is very great. The shipments of zinc ores to the United States for 1913 are estimated at 9,017 tons, with zinc contents of 7,685,600 pounds, having an aggregate value of \$494,452.

Improved methods calculated to save more of the zinc contents are attracting attention, and a much heavier tonnage of zinc ores will be exported in 1914.

Under any circumstances, however, only zinc ores of a very high grade can be shipped to the United States. There remains a large tonnage accumulating at nearly all the lead producing mines of ores carrying from \$10 to \$25 in gross values of silver, lead and zinc contents of which no profitable disposition can be made.

#### EXPERIMENTAL WORK.

In the session of 1910, by Chapter 37 of the Statutes of Canada, the sum of fifty thousand dollars was diverted from the gross amount designated as to be disbursed in lead bounties, and appropriated for experimental work in the electrical smelting of zinc-lead ores. Under this authorization, work has since been proceeding under the direction of Dr. Eugene Haanel, Dominion Director of Mines, who has retained as consulting engineer, W. R. Ingalls of New York. Experimental work hitherto carried on at the University of McGill, has this year been transferred to Nelson, B.C.

The plant of the Canada Zinc Company has been put by the Government of British Columbia at the disposal of Dr. Haanel.

The staff at Nelson consists of G. C. McKenzie, chief engineer, Division of Metallurgy; Ed. Dedolphe, superintendant of plant; and D. C. Paleologue, chemist and electrical engineer.

About fifteen men are employed. The city of Nelson supplies at a special rate the electrical power required, stated to be about 100 kilowatts, equal about 100 horse power.

The preliminary work undertaken has consisted of the modification of some of the existing furnaces, and the installation of some that are new. The plant will be ready for operation about January 31, 1914, and demonstration upon something like a commercial scale will be made of the processes that in laboratory tests have afforded some promise of useful results, the ultimate object being to make a marketable product out of a class of ores very abundant in British Columbia, but not now by any known process of smelting of any value. The ores used will be from the Sullivan, Standard, Blue Bell, H.B., and other important local mines.

#### KINGSTON SMELTER.

A feature of the year has been the operation for a part of the time of a lead smelter, by the North American Smelting Co., Ltd., at Kingston, Ont.

The principal shipper of lead ores to the smelter has been the Monarch mine, the property of the Mount Stephen Mines, Ltd., of Vancouver, B.C. The Monarch mine is situated at Field, B.C.

For the latter months of the year, I have noted that the Monarch ores are again coming to Trail, and I have had no reports of receipts at Kingston.

SESSIONAL PAPER No. 10c

## THE OUTLOOK.

The outlook for 1914 is for an increased production of lead.

The marked success which has attended efforts to resuscitate some of the old mines lately idle, has stimulated further enterprise in that direction.

The mines that first attracted attention to Southern British Columbia were the Blue Bell at Riondel, the No. 1 at Ainsworth, and the Silver King at Toad Mountain, near Nelson. Since 1887 these properties have experienced many vicissitudes, and have been for long periods idle, but all of them are now being worked.

Work was renewed in the Slocan Star and Surprise mines, in the Sandon camp. The Highland of Ainsworth, after eight years of inactivity, is again shipping. All of these (except the Silver King, which is not a lead mine) appear in the list of principal shippers which I have elsewhere detailed.

As representing an entirely new district, attention may be called to the Silver Standard mine, situated near Hazelton on the Skeena river, in Northern British Columbia. Notwithstanding the great distance intervening, the Silver Standard has shipped to Trail this year ores with lead contents of 150,000 pounds, and further shipments of 500 or 600 tons of ore are to be made this winter.

The greatest of the mines represented on the list of bounty claimants are, however, the Sullivan and the Standard. The Sullivan (Kimberly, East Kootenay) has shipped, in 1913, ore with assay contents of lead amounting to 17,854,591 pounds.

From a quite inconspicuous mine the Standard of Silverton, B.C., has within the last three years been developed into the greatest of all the silver-lead mines. My figures of its deliveries at Trail show lead contents of (for 1913) 18,718,790 pounds.

From published reports I find that the Standard is said to have also produced 1,206,193 ounces of silver, and 4,680,000 pounds of zinc.

No disputes as between rival claimants have arisen during the year. No such disputes remain unadjusted.

I have the honour to be, Sir,  
Your obedient servant,

(Sgd.) G. O. BUCHANAN,  
Supervisor of Lead Bounties.

4 GEORGE V., A. 1914

ANNUAL REPORT OF MR. J. C. WADDELL, INSPECTOR OF CRUDE  
PETROLEUM BOUNTY CLAIMS.

PETROLEA, ONT., January 1, 1914.

F. C. T. O'HARA, Esq.,  
Deputy Minister,  
The Department of Trade and Commerce,  
Ottawa.

SIR,—As Supervisor of Petroleum Bounties I beg to hand you herewith my annual report for the calendar year 1913.

Oil operations in Ontario have not shown any startling developments, but have been of a quiet nature during the past year. As mentioned in my report of 1912, the producers at Oil Springs had good hopes of finding a flow of oil at a greater depth. Two deep wells already drilled have proved strong gas wells, and the supply is being used for domestic purposes. A third well has been drilled to the depth of 500 feet and prospects are favourable for a good find of oil in that territory.

No new oil fields have been opened up this year, with the exception of Belle River district, which has produced about 800 barrels, and will likely show increased production with the active operations now under way.

This year's total production shows a decrease of about 17,000 barrels. This is a smaller decrease than in former years. Comparing the last three years the production has been as follows: 1911, 280,000 barrels; 1912, 240,000 barrels; 1913, 223,000 barrels.

Appended herewith is a statement showing the yearly production by districts. All of which is most respectfully submitted.

I have the honour to be, Sir,  
Your obedient servant,

(Sgd.) J. C. WADDELL,  
Inspector

4 GEORGE V., A. 1914

REPORT OF MR. J. C. WADDELL, INSPECTOR OF BINDER TWINE  
AND CORDAGE BOUNTY CLAIMS.

PETROLEA, ONT., December 31, 1913.

F. C. T. O'HARA, Esq.,  
Deputy Minister,  
The Department of Trade and Commerce,  
Ottawa.

SIR,—As Inspector of Binder Twine, I beg to hand you herewith my annual report for the calendar year 1913.

The manufacturers of binder twine in Canada have decreased in number during the past few years. This year binder twine has been manufactured by the following firms: The Brantford Cordage Co., Brantford; the Plymouth Cordage Co., Welland; and The Consumers Cordage Co., Montreal and Halifax. Each of these factories employ a large number of hands and have been running to their full capacity throughout the year. The output for the year 1913 will be about 11,000 tons; this is about 6,000 tons less than was manufactured in 1912. The shortage is accounted for by the closing of the Peterborough Cordage Co. factory at Peterborough, and on January the 13th the Brantford Company's warehouse was destroyed by fire and the loss of about 700 tons of twine.

The output will likely be increased this year as the Brantford Cordage Co., are installing about 70 new machines, this will double the output and capacity of the Brantford factory.

For some years the Canadian manufacturer has been paid a bounty on all Manila fibre, exported from the Philippine Islands; this bounty was equal to the amount of the export duty, and placed the Canadian manufacturer on the same basis as the American twine manufacturer. On October 4, inst., the export duty was withdrawn by the United States Government, and with the withdrawal of the export duty, the bounty to the Canadian manufacturer also ceased.

During the season I have visited all the principal towns and cities in the West, and have found the twine conditions very satisfactory.

All of which is most respectfully submitted.

I have the honour to be, Sir,  
Your obedient servant,

(Sgd.) J. C. WADDELL,  
Inspector.

FEES CHARGEABLE UNDER THE INSPECTION AND SALE ACT CHAP. 85.

*Flour and Meal.*

For such inspection and branding and marking the person who required the inspection thereof shall pay to the inspector for each and every barrel and half barrel of flour or meal so inspected and branded or marked the sum of two cents exclusive of the charge for cooperage, before such flour or meal is removed; and when any less quantity than one hundred barrels of flour or meal is offered for inspection at one time, the inspector shall be entitled to receive the full fees that would accrue to him on one hundred barrels.

As soon as any flour or meal is inspected, a bill of inspection shall be furnished by the inspector or deputy inspector without fee or reward, specifying neatly and legibly the quantity and quality ascertained by inspection, the gross weight of five per cent thereof, and the tare of one per cent thereof and the charges therefor, and the name of the mill at which the flour or meal was manufactured.

When the inspector in his judgment deems it necessary to strip or empty out the flour to find out if there is the proper weight of flour in any cask he shall be entitled to two cents for each barrel so stripped or emptied if it proves to be short weight in addition to the two cents per barrel for inspecting and branding.

## FEES CHARGEABLE UNDER THE INSPECTION AND SALE ACT CHAP. 95.

## PICKLED FISH AND FISH OILS.

Every inspector and deputy inspector who inspects and brands or marks any cask or package of pickled fish or pickled fish in bulk, or smoked fish, or any fish oil in accordance with the provisions of this Act, shall be entitled to fees at the following rates, which shall be paid by the original owner or the person who employed him in the first instance, that is to say :—

1. For each tierce of salmon, salmon-trout or sea-trout, fifteen cents ;
2. For each half-tier of salmon, salmon-trout or sea-trout, ten cents ;
3. For each barrel of salmon, salmon-trout or sea-trout, fifteen cents ;
4. For each half-barrel of salmon, salmon-trout or sea-trout, ten cents ;
5. For each barrel of mackerel, ten cents ;
6. For each half-barrel of mackerel, five cents ;
7. For each barrel of herring, seven cents ;
8. For each half-barrel of herring, four cents ;
9. For each barrel of shad, ten cents ;
10. For each half-barrel of shad, seven cents ;
11. For each barrel of white-fish, ten cents ;
12. For each half-barrel of white-fish, seven cents ;
13. For each barrel of pickled codfish, hake, haddock, or catfish, five cents ;
14. For each half-barrel of the same, three cents ;
15. For each quarter-barrel or kit of pickled fish, one and one half cent ;
16. For each barrel of dry-salted codfish, hake, haddock, catfish, ling and pollock, five cents ;
17. For each half-barrel of the same, three cents ;
18. For each barrel of bass, ten cents ;
19. For each half-barrel of bass, seven cents ;
20. For each box of smoked herrings, one cent ;
21. For each half-box of smoked herrings, one-half cent ;
22. For each quarter-box of smoked herrings, one-quarter cent ;
23. For each barrel of cod tongues, cod sounds, halibut or eels, ten cents ;
24. For each half-barrel of the same, seven cents ;
25. For inspecting, gauging and branding each puncheon of oil, twenty cents ;
26. For inspecting, gauging and branding each hogshead of oil, fifteen cents ;
27. For inspecting, gauging and branding each tierce of oil, twenty cents ;
28. For inspecting, gauging and branding each barrel of oil, fifteen cents ;
29. For inspecting empty packages, one cent ;

The foregoing rates shall be calculated exclusive of salt, pickle, cooperage, storage and labour employed in washing, rinsing, cleaning, nailing, screwing or re-packing and pickling any fish ;

Provided always, that any person causing his fish or fish oil to be inspected, may employ at his cost and charges, a cooper to attend upon and assist the inspector or deputy inspector in the performance of his duty—in which case the inspector or deputy inspector shall not be allowed any charge for cooperage—and the cooper so employed shall be governed and guided solely by the directions which he receives from the inspector and deputy inspector with respect to any fish or fish oil by him inspected, and not by any other person. 37 V., c. 45, s. 68 ;—44 V., c. 22, s. 1 ;—48–49 V., c. 66, s. 16.

SESSIONAL PAPER No. 10c

## ADMINISTRATION OF GOLD AND SILVER MARKING ACT.

TORONTO, December 1, 1913.

F. C. T. O'HARA, Esq.,  
Deputy Minister,  
Department of Trade and Commerce,  
Ottawa.

SIR,—I beg to report that since April 1, 1913, when the administration of the Gold and Silver Marking Act was taken over by the Department of Trade and Commerce, the results have been most gratifying to the trade and beneficial to the public.

It was necessary, however, to use more than the Gold and Silver Marking Act to protect the public from being imposed upon by fraudulent dealers, especially those dealers who were importing into Canada in large quantities certain watches which were not up to reasonable standards. The movement of these watches is made in Switzerland to the order of the dealers, and so made up as to be represented as high grade railroad watches; on the dial plate are the words "Railroad Special" and on the movement plate the words "21 jewels adjusted to six positions, heat and cold," whereas the movement contains none of these merits whatever.

As the complaints were numerous from all parts of Canada about this fraudulent practice, your department availed themselves of the Criminal Code, and under the section "False marking of merchandise" prosecuted two importers and ten dealers in this class of trade.

The convictions under the Gold and Silver Marking Act, up to this date, numbered thirty, as follows:—

Eight were found guilty of violating section 16 for guaranteeing watch cases to wear a specified time. Three of the eight defendants imported cases stamped "Guaranteed permanent" and argued that the word "permanent" did not specify time. They were convicted and the importation ceased. Three others were convicted under the same section for offering for sale lockets and watch chains with tags attached guaranteeing them to wear so many years.

Under section 11, which makes it obligatory for a manufacturer to stamp his goods truly and correctly the fineness of gold contained in same, it was the duty of the department to bring into court nine defendants.

Five of them had their rings marked "18 kt." whereas, according to the assay of the Royal Mint at Ottawa, the nearest to that standard was one of 16·9 kt., and the other four were nearer to 15 kt.

Two were marked "14 kt." and were found to be less than 12 kt. and two were marked "10 kt.," one of which was only 7·15 kt. and the other 8·9 kt.

The instructions of the department to enforce this section of the Act more strenuously after January 1, 1914, will be faithfully carried out. The new Act which goes into force on that date makes the assay of the Royal Mint *prima facie* evidence, and renders the intention of Parliament more effective.

The violation of section 13 was the most prevalent. The importation and sale of gold filled rings bearing the karat mark.

Six dealers were convicted of this offence. It has been a common practice for many to have gold filled and electro-plated rings marked 14 K.G.S. and offering for a defence, that the G.S. stood for "gold shell," yet when offering it to the public they would represent the G.S. to be manufacturer's initials. This is another practice that the new Act will not permit of any excuse for, as it prohibits the karat mark on all but gold goods.

4 GEORGE V., A. 1914

There were also three manufacturers convicted for neglecting to register their trade marks, and one mail order house for guaranteeing the gold plated articles illustrated in their catalogue to wear a specified time.

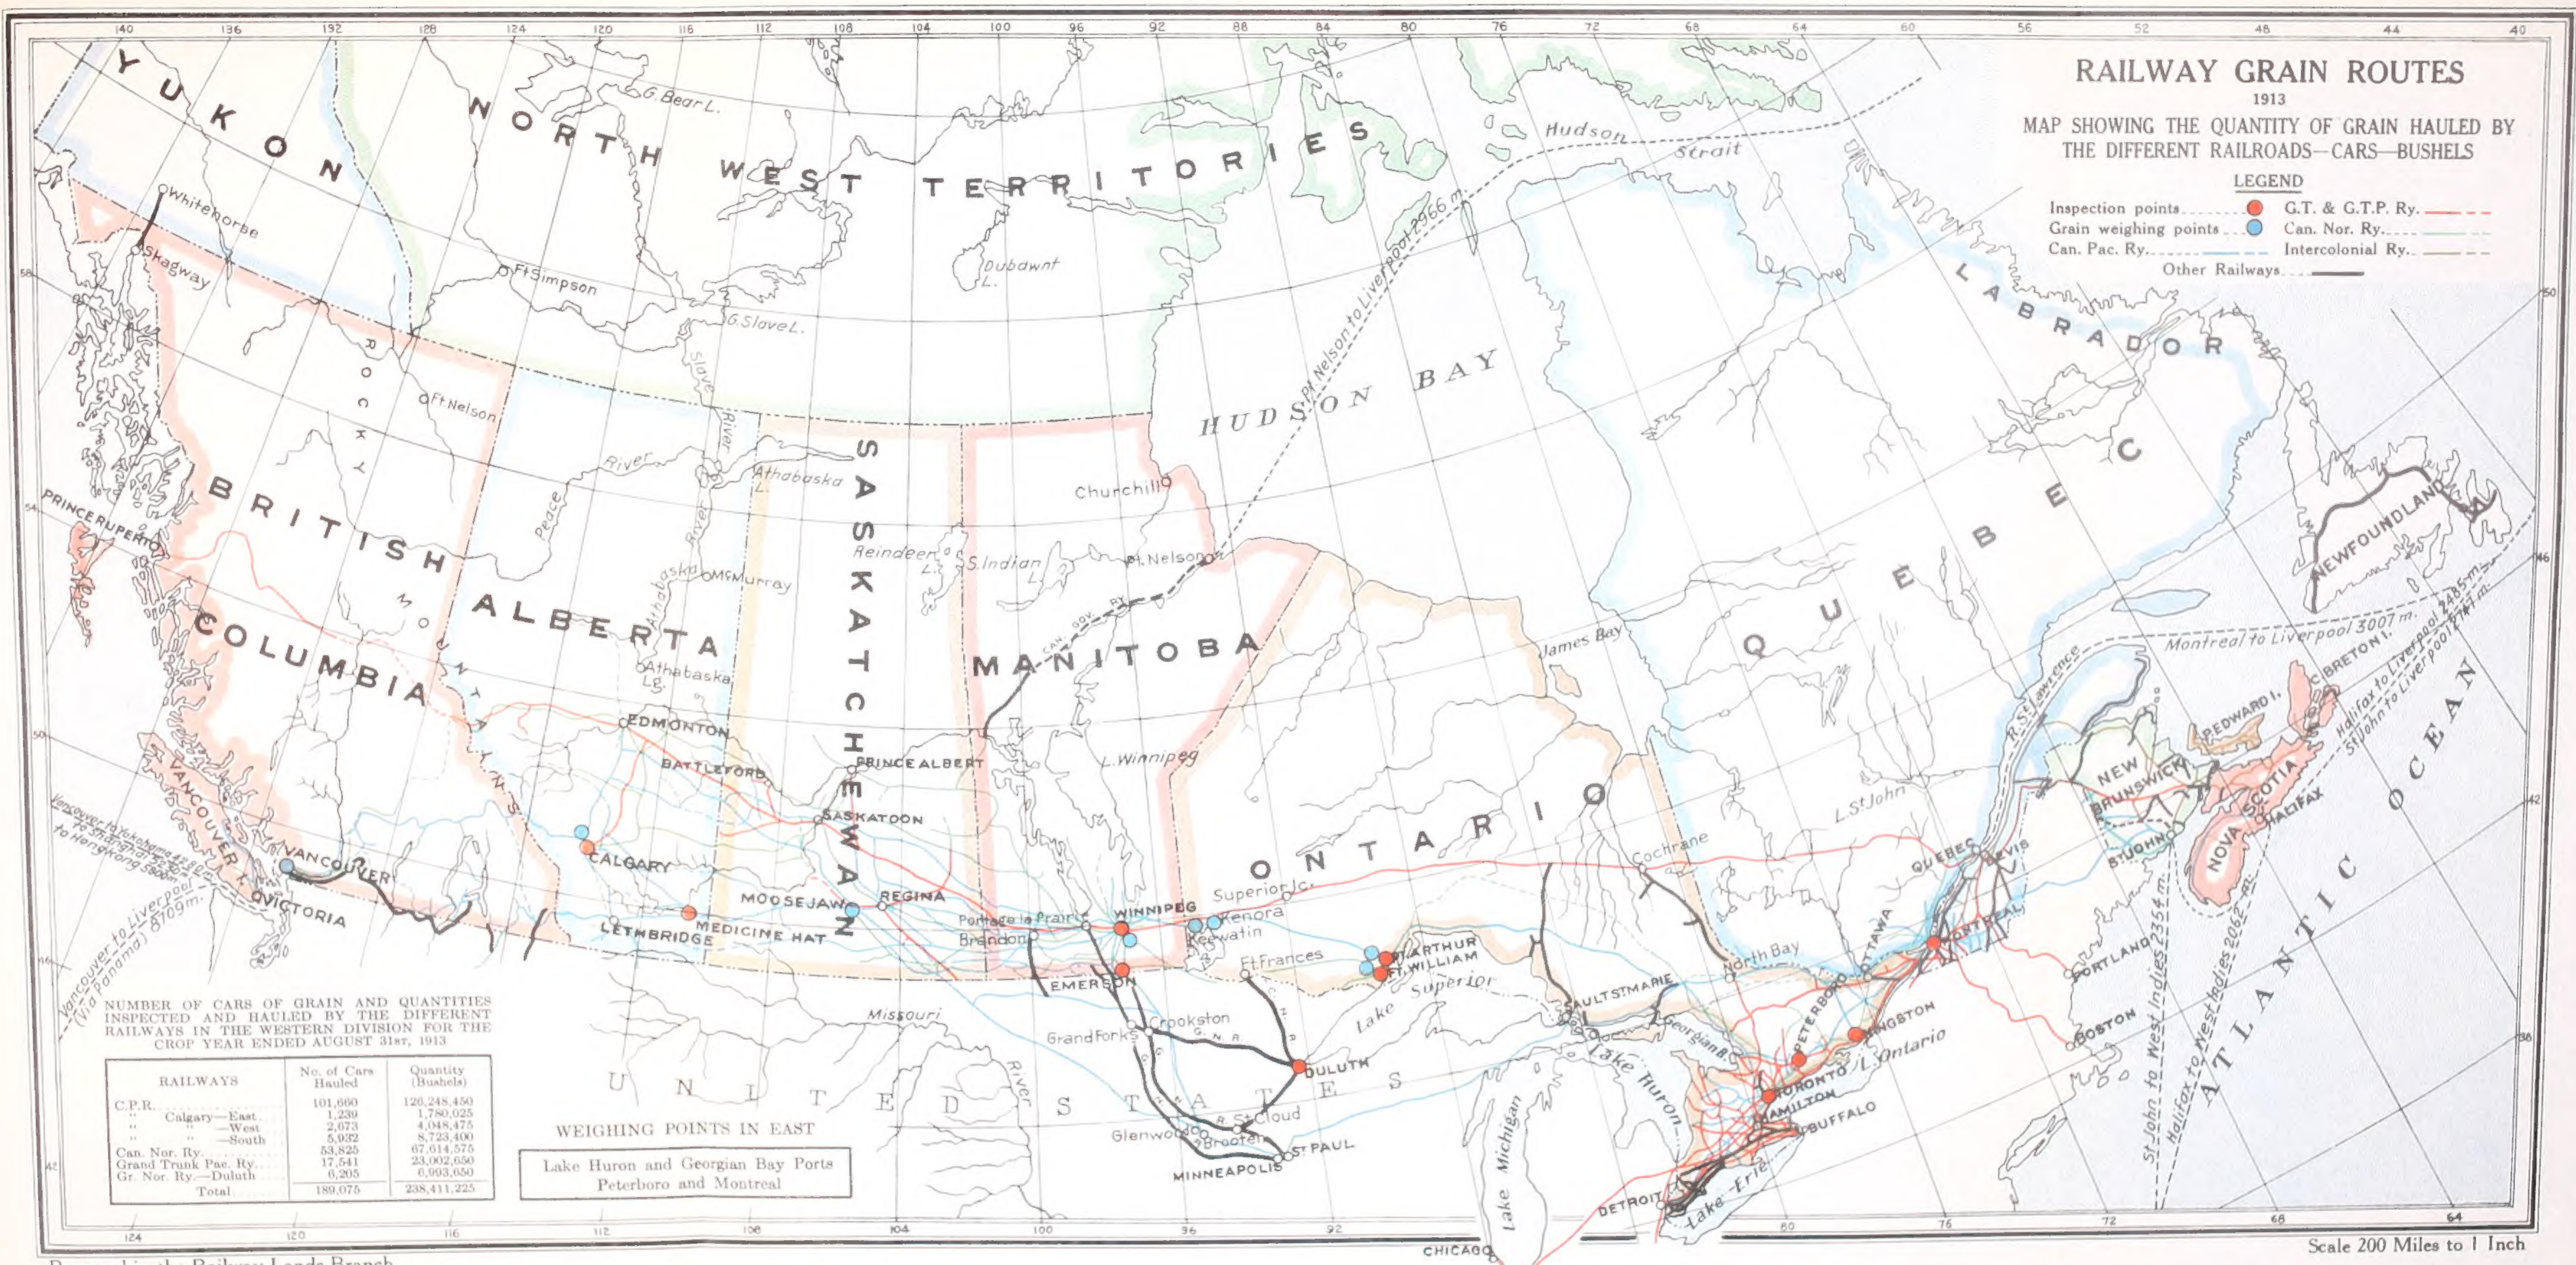

During the eight months' administration of the Gold and Silver Marking Act by the Department of Trade and Commerce, the provisions of this measure have become well established by the publicity given to the various convictions throughout Canada, and from the many inquiries from the manufacturers in the United States, Great Britain and Europe, with requests for copies of the Act.

The department has every to believe that the Act of 1914 will be rigorously complied with by the manufacturers and dealers, and that the public will feel safe in buying goods marked in accordance with the Gold and Silver Marking Act of Canada.

Your obedient servant,

(Sgd) W. J. RYAN,  
*Inspector.*
